MY AGILE LOGBOOK

Name: Olona Williams (Research)
Team: Transformers | Project: CivicFix: Municipal Hazard and Infrastructure Auto-Dispatcher
Programme: CAPACITI Data Academy | Subject: PRP370S Project Presentation 3
Logbook 1 of 4 | Period: 25 September 2026 to 30 September 2026 (Friday to Wednesday)
Task board: CivicFix: Team Transformers (Trello)

TASKBOARD

Product Backlog	In Progress	Completed
• Problem identification: hazard reports sent as unclear emails and blurry photos	• Enhancement: refine the problem statement wording using my research findings	• 1.Define Project Objectives (25 Sep)
• Problem research and impact on residents and municipal staff	• Enhancement: add Cape Town hazard examples to the problem research	• 2.Understand the Problem (28 Sep to 29 Sep)
• Target user identification	• Enhancement: make the target user descriptions clearer (residents and municipal staff)	• 3.Identify the Target Users (29 Sep)
• Problem statement		• 4.Define the Problem Statement (30 Sep)
• Non-functional requirements (privacy, safety, POPIA, human review below about 70%)		
• Project scope and MoSCoW feature prioritisation		
• User stories for residents and staff		
• Literature review and hazard knowledge base		
• Routing rules to the correct municipal department		
• Photo collection and labelling (Cape Town hazards)		
• Design review		
• Development environment and project file set-up (GitHub, Teams)		
• Resident reporting flow: photo, review, 250 m duplicate check, ticket and tracking		
• My Reports dashboard		
• Staff live queue and crew assignment		
• Community page		
• Acceptance tests (UAT-01 to UAT-13) and issue list		
• Fixing identified issues and deploying the website		
• Project documentation: problem, requirements, development plan and risks		
• Team presentation and evaluation of CivicFix		
• Agile logbook and daily standups (09:30)		

WALKTHROUGH

1. What do we need to do to advance this piece of work?	• Elect group leader • Create Team Charter • Assign roles and responsibilities • Set up the Trello board and sprint • Complete the Agile Logbook • Keep up with daily standups (09:30)
2. Is anyone working on anything that is not on the board?	No, all tasks are aligned with the taskboard.
3. What do we need to finish as a team?	Define the problem, the impact and the target users, and agree the CivicFix problem statement
4. Are there any bottlenecks or blockers to the flow of work?	• Coordination of group schedules • Time constraints (short sprint and daily Coursera AI course)

LOGBOOK

Date:	25-09-2026	
Friday	1. What did I complete since the last standup?	• Attended the first team meeting and sprint planning • Helped the team identify the community problem for CivicFix: hazard reports arriving as unclear emails, blurry photos and vague locations • User story: As a project group, we wanted to identify a problem affecting our community so that we could develop a useful web-based solution • Card 1 (Define Project Objectives, label Sprint 1) ticked 5/5 and marked Complete on the board
	2. What am I planning to complete between now and the next standup?	• Research how hazard reports are currently made to municipal departments • Start understanding the problem in more detail (card 2)
	3. What are my impediments (or risks or problems)?	• Agreeing on one problem from several ideas • Team meeting time had to move from 10:30 to 14:30

Date:	28-09-2026	
Monday	1. What did I complete since the last standup?	• Started card 2 (Understand the Problem, due 28 Sep to 29 Sep) • Read articles and reports on hazard reporting and infrastructure delays • Noted examples such as potholes, broken water mains, illegal dumping and failed traffic lights
	2. What am I planning to complete between now and the next standup?	• Finish researching the impact of the problem on residents and municipal staff • Start identifying the target users
	3. What are my impediments (or risks or problems)?	• Finding reliable sources that are specific to Cape Town • Coordination of group schedules

Date:	29-09-2026	
Tuesday	1. What did I complete since the last standup?	• User story: As a group, we wanted to understand the problem in more detail so that we could determine its impact • Finished understanding the problem and its impact (card 2, label Sprint 2, ticked 5/5 and marked Complete) • User story: As a group, we wanted to identify our target users so that CivicFix could meet their needs • Identified our target users: residents who report hazards and municipal staff who need a ranked queue (card 3, label Sprint 3, ticked 5/5 and marked Complete) • Shared my research findings in the Teams channel
	2. What am I planning to complete between now and the next standup?	• Help the team write the problem statement (card 4) • Use my research to support the wording
	3. What are my impediments (or risks or problems)?	• Time constraints, balancing project work with the daily Coursera AI course

Date:	30-09-2026	
Wednesday	1. What did I complete since the last standup?	• Contributed my research to the problem statement (card 4) • Reviewed the final wording with the team and agreed on it • Card 4 ticked 5/5
	2. What am I planning to complete between now and the next standup?	• Move on to the next card on the board • Start gathering information on the hazard types CivicFix must recognise
	3. What are my impediments (or risks or problems)?	• Agreeing on the exact wording of the problem statement • Making sure all team members are aligned
